Posting #: 16-0412

Permanent Full-Time Position

Location: Sudbury, Ontario

A dynamic and growing health care environment awaits you in [Sudbury](#) Ontario: [Canada's happiest city!](#) Surrounded by provincial parks and over 200 lakes, Greater Sudbury has over 160,000 residents and is a rich mix of urban, suburban, rural and wilderness environments. Just a one hour flight or four-hour drive of Toronto; here, you will experience the balance of a challenging clinical career and a comfortable lifestyle, right in the heart of Northern Ontario's largest city.

Reporting to the Manager of the Division of Anatomic Pathology and working with an experienced team of Medical Laboratory Technologists and pathologists, the Charge Medical Laboratory Technologist will be accountable to maintain the safe and efficient operation of the Histology department including Immunohistochemistry, providing clinical and technical guidance to staff and other health care professionals.

The successful candidate should be a graduate of a recognized Medical Laboratory Technology program with advanced certification being a requirement, also hold current professional registration and licensure with the College of Medical Laboratory Technologists of Ontario to include the **specialty of Histology**, have a minimum of seven (7) years recent and relevant experience in Histology/Immunohistochemistry and three (3) years' of leadership experience including training, coaching and mentoring staff, students and colleagues.

Interested applicants are asked to apply directly to posting #16-0412 by August 31st 2016 at 4pm on the HSN Careers Website at www.hsnsudbury.ca. To learn more about Sudbury, find [Relocating to Sudbury](#) on our careers page.

Health Sciences North (HSN) is a regional resource and referral centre for over 600,000 residents across northeastern Ontario. It features state-of-the-art technology with over 3,900 employees, 800 volunteers and a medical, dental and midwifery complement of 260. HSN has become a Research and Academic Health Science Centre affiliated with the Northern Ontario School of Medicine and the Health Sciences Research Institute.
