

Island Health is seeking a focused and energetic Cardiopulmonary Technologist

Job Summary

This is a temporary full-time position at the Heart Cardiac Catheterization Laboratory at Royal Jubilee Hospital until September 14, 2018.

In this role, you are responsible for the collection and analysis of physiological data from cardiac catheterization, and other related invasive cardiac procedures. You will provide technical assistance/support to the Cardiac Catheterization Program, Cardiac Surgical Program and other related programs to include physiological monitoring and support procedures.

Qualifications

Ideally you are a graduate of a recognized Cardiovascular/Cardiopulmonary Technology program or hold a baccalaureate degree in a Biological Science plus one year recent related experience (or an equivalent combination of education, training and experience). Current registration (or eligibility) with the Canadian Association of Cardiopulmonary Technologists is required.

Your background demonstrates your ability to work under stressful conditions; have excellent attention to complex details over lengthy periods and to make sound decisions.
