

Basic & Advanced Life Support

2020/2021 Schedule

The facilitators made excellent use of our time. They also provided a wealth of experience and knowledge outside of just the basic PALS material which really enhanced the learning experience.

- PALS Student 2019

School of Continuing Education offers a variety of workshop-based and online courses for those who work in primary and critical care environments. These course options, including Advanced Life Support and Adult Physical Assessment, use team, case and simulation-based learning to build these critical skills for a wide range of health professionals.

These simulation-based courses delivered live by expert facilitators with years of real-life experience will help you maintain your credentials and the skills crucial to providing emergency and critical care to patients. Some of these courses, including Advanced Cardiovascular Life Support and Basic Life Support, are delivered using the standards outlined by the Heart and Stroke Foundation.
