# Reporting a Self-Administered COVID-19 Rapid Screening Test

1 **Complete your Self-Administered COVID-19 Rapid Screening Test, and take a clear photo of your test result**
Please note that some testing kits will not display the result of your test indefinitely, so it is best to take this photo immediately after receiving your result.
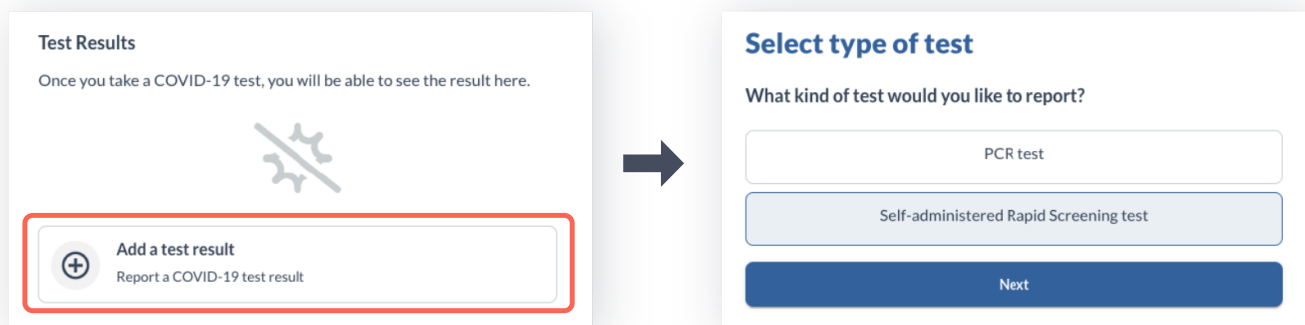

2 **Log in to *my.thrive.health***
Go to the **COVID-19 Health Centre** and scroll to the bottom of the page.

3 **Click "Add a test result" to begin the reporting process**
Select the **Self-Administered test option**, confirm that you are entering the test for yourself, and which organization you are entering it for.

4 Enter your details and upload your photo

Fill out the details for your Self-Administered COVID-19 Rapid Screening test. Be sure to enter the test kit lot number correctly. Upload the photo of your test result.

When was the test administered?

COVID-19 Rapid Screening · Self-Administered

Your test sample does **not** contain COVID-19. Please continue to follow your workplace COVID-19 safety protocols.

Recommendation   ⌃

Please follow your local public health guidelines and your organization's COVID-19 safety policies. For more information, go to the Health Canada Provincial and territorial resources for COVID-19 webpage.

If you have had a recent COVID-19 test, please follow your public health authority's instructions when determining your next steps.

If you have had a recent COVID-19 test, please make sure to enter your test result in the COVID-19 Health Centre in the app and please follow your public health authority's instructions.

You can also enter a Self-Administered COVID-19 Rapid Screening Test by going to your organization in the Care Network tab, and selecting "Add a test result."
