

Horizon Health Network

Horizon Health Network is the largest health-care organization in Atlantic Canada, operating 12 hospitals and more than 100 medical facilities, clinics and offices providing medical services ranging from acute care to community based health services to New Brunswick, northern Nova Scotia and Prince Edward Island. With 1000 physicians, an annual budget exceeding \$1 billion and approximately 12,600 employees, Horizon Health Network's strategic vision focuses on research, innovation and education.

We have more than 12,600 dedicated, energetic employees working with over a 1,000 physicians. Horizon is an organization that values and recognizes your contributions, is dedicated to patient safety and satisfaction, has competitive pay and benefits and offers opportunities for professional growth. Horizon will provide you with the opportunity to work for an organization that you can feel proud of!

Department of Radiation Oncology

The Saint John Regional Hospital invites Radiation Therapists to apply for a variety of opportunities on our cutting edge team.

Our Radiation Oncology Program is recognized as a center of excellence for the diagnosis and treatment of malignant disease. We offer a comprehensive service to provide tertiary adult cancer care to the citizens of New Brunswick.

- Clinical Trials Division
- Adult In-Patient Oncology Unit
- Outpatient Adult Oncology Clinic
- Systemic Therapy Outpatient Service
- Therapeutic Physics
- Radiation Therapy
- Dosimetry
- New Brunswick Apheresis Program
- New Brunswick Photopheresis Program
- New Brunswick Stem Cell Transplant Program

The Saint John Area is one of only two Radiation Oncology Centers in New Brunswick. We receive approximately 1200 new radiation oncology consults per year. Our Radiation Therapy Department is equipped with a GE Optima 580RT CT, three Varian linear accelerators (EDGE, iX and Trilogy) and an Eckert & Ziegler BEBIG MultiSource HDR unit. The clinical information system is Aria version 13.6. Velocity 3.1.0 is the image registration software while the treatment planning systems are Eclipse version 13.6, iPlan 4.5 (SRS) and HDR Plus (HDR brachytherapy). We are heavily involved with IMRT delivery using RapidArc, SRS, SBRT, and HDR. We are adding a second GE CT Simulator in the Fall 2018.

Our center is constantly pushing to offer leading edge treatments for our patients and we are currently working collaboratively on initiatives with other leaders in the field including the Dalhousie University Department of Radiation Clinical Care Committee, the Canadian Partnership for Quality Radiotherapy, the Canadian Partnership Against Cancer (CPAC), the Canadian Institute for Health Information (CIHI), and the New Brunswick Cancer Network (NBCN).
