

# We're hiring!

## The Ottawa Hospital is now hiring MRI Technologists for the MRI Department (Job ID 72392)

The Ottawa Hospital's vision puts patients at the centre of all we do.

A compassionate provider of patient centred health-care services with an emphasis on tertiary-level and specialty care, The Ottawa Hospital serves a bilingual community of 1.3 million residents in Eastern Ontario.

The Department of Medical Imaging is one of the largest imaging departments in Canada performing approximately 500,000 exams per year. Working as a member of our MRI Team will expose to a variety of exciting cases and give you the opportunity to work with a group of high achieving health care professionals that will foster your growth and career development.

### We offer:

- A competitive compensation package
- An extensive benefits program
- Orientation and training
- Extensive learning and development opportunities
- An inclusive and diverse work environment
- A comprehensive wellness program

### As a member of the MRI Team, you will:

- Use imaging and ancillary equipment to perform urgent and routine MRI procedures;
- Work co-operatively with other members of the health care team to perform diagnostic or interventional procedures;
- Provide patient and family education related to imaging procedures;
- Participate in program evaluation and report operational needs/concerns/recommendations;
- Actively participate in in-house education programs.

### Qualifications:

- Completion of a comprehensive course of study in MRI physics/imaging applications, including practicum;
- Registration with the College of Medical Radiation and Imaging Technologists of Ontario in the specialty of magnetic resonance (MR);
- Ability to perform Diagnostic Imaging procedures to professional standards and assist in invasive procedures;
- Knowledge of septic and aseptic techniques and cross-sectional anatomy; and
- Eligible to work in Canada.
