---

**IMAGINE** a hospital where everyone is committed to excellence. We did. We are. From boardroom to bedside, we go above and beyond to offer the best and safest patient care. At North York General Hospital, we put our patients first in everything we do. We are achieving a new standard of excellence in integrated patient-centered care, and as one of Canada's leading community academic hospitals, we are building on our academic foundation through enhanced education, research and innovation. As part of our dynamic team, you too can stand out and be amazing! At North York General, our team is making a world of difference.

**Medical Laboratory Technologist, Core Lab, Biochemistry:**

Your goal in this position is to perform laboratory tests and procedures in accordance with departmental and divisional policies. You will perform laboratory procedures with accuracy and precision. You will perform preventive maintenance of equipment. You have the ability to recognize problems and take appropriate action. You are computer proficient, have superior communication and interpersonal skills, effortlessly connecting with physicians, staff, patients, and families, and display a high degree of professionalism. You demonstrate strong problem-solving skills and the ability to work under pressure and maintain high level of productivity and competence. You will provide excellent patient and family-driven care in a supportive and culturally sensitive manner. You will also take on the shared responsibility for ensuring that health and safety policies are followed to provide for a healthy environment for patients, staff, physicians, volunteers and families.

**On a practical level, you will:**

- Perform routine and specialized lab procedures
- Perform calibration procedures on assays
- Participate in quality control and quality improvement programs
- Identify problems and take appropriate corrective action
- Support other core lab areas (i.e. transfusion medicine and hematology)
- Use LIS to record and report information

**Working at NYGH** means working with a dynamic team of fellow healthcare providers, staff, and volunteers in one of Canada's leading hospitals. **This is a full-time, regular position with required nights, including weekend shifts.** We offer a highly competitive total compensation package that includes benefits, pension, and vacation. If you were searching for more reasons to consider joining the wonderful team at NYGH, check out some features of our [Total Rewards package](http://nygh.on.ca) by visiting [nygh.on.ca](http://nygh.on.ca)

**Qualifications:**

- Current CMLTO registration for Biochemistry, Transfusion Medicine, Hematology, and Microbiology
- CSMLS certified/registered
- Experience in Core Laboratory an asset

**How to Apply:**

Think you're the right person for the job? Here's your first chance to show us why:

- Please submit a resume to Human Resources
- Ensure your contact information and the title of the position to which you are applying is accurate
- Ensure to meet the deadline
- We will review all completed applications and will contact those selected for an interview

We are committed to fostering an inclusive and accessible environment. We are dedicated to building a workforce that reflects the diversity of the community in which we live, including those with disabilities, and are committed to providing accommodations in all parts of the hiring process. If you require an accommodation, we will work with you to meet your needs.
