

DIAGNOSTIC MEDICAL SONOGRAPHERS

Metro Vancouver / Fraser Valley / Powell River - British Columbia

Medical Imaging at Vancouver Coastal Health (VCH), Fraser Health (FH), Providence Health Care (PHC) and Provincial Health Services Authority (PHSA) delivers integrated diagnostic services and programs that include general radiography, angiography, computed tomography, magnetic resonance imaging, nuclear medicine, ultrasound, breast imaging, and other specialty imaging procedures.

We employ all levels of Medical Imaging professionals across the Greater Vancouver Region, Fraser Valley, Sea-to-Sky Corridor and Sunshine Coast — new grads are welcome!

Vancouver Coastal Health provides a full spectrum of Ultrasound services, including general, small parts, and vascular Ultrasound, obstetrics and gynecology, interventional procedures, and echocardiography. You can choose to work in a cutting-edge teaching and academic centre in which leading technology, advanced practice, and research go hand-in-hand, or practice in a small community where your broader skills will be fully utilized. Wherever you choose to work, you'll be using the latest scanners from GE, Philips, Toshiba and Siemens, and PACS workstations.

Join other sonographers who have come from across Canada and the United States and as far away as Australia and New Zealand to work with our team. You'll find mentors among our skilled radiologists and sonographers as well as opportunities for continuing education by attending rounds, conferences, and courses offered by Vancouver Coastal Health.

HOW TO APPLY: Interested candidates are invited to apply online at careers.vch.ca
