

**Exciting Full-time permanent opportunity available in Kingston, Ontario for MRI professionals eager to join the Kingston MRI Team. Shifts will include rotational days, evenings and weekends. Highly competitive salary and benefits commensurate with experience. New graduates welcome to apply.**

**REQUIREMENTS:**

- ❑ Under the direction of the Medical Director, the Manager and the Charge Technologist, the MRI Technologist will assist and participate in the day-to-day operation of the MRI suites, including:
  - completing and documenting MRI scans
  - ensuring compliance with all applicable Statutes, Regulations, and CPSO standards, and particularly Ministry of Health and Long-Term Care rules pertaining to the provision of MRI scans to Ontario patients
  - participating in training and Quality Control programs
  - ensuring current certification with all qualifications and CME requirements
  - ensuring Kingston MRI policies, procedures and MRI safety guidelines are implemented
  - assisting in maintaining all necessary facility supplies, this includes stocking supplies and other essential items
  - documenting Quality Control procedures
  - cleaning scan room and coils
- ❑ The qualifications of the MRI Technologist include:
  - Current and valid certificate of registration with the College of Medical Radiation Technologists of Ontario (CMRTO)
  - Certification in MRI from a recognized institution
  - Certificate in BCLS with recertification every two years
  - Injection certificate from Contrast Injection for Radiographers course at Michener Institute or equivalent
- ❑ The MRI Technologist is to remain current with changing technical trends in MRI by attending conferences, meetings, or other CME, and reading current relevant literature. Documentation of CME is maintained.
- ❑ Demonstrated excellence in interpersonal, communication and problem-solving skills
- ❑ PACS and RIS experience
- ❑ Able to function effectively as a member of the multi-disciplinary team
- ❑ Demonstrated pattern of good attendance
- ❑ Experience with Philips MRI (D-Stream) would be an asset
