Nova Scotia Health Authority is the largest provider of health services in Nova Scotia. We are over 22,000 employees who provide health care and support services in hospitals, health centres and community-based programs throughout Nova Scotia.

Nova Scotia Health Authority provides health services to Nova Scotians and some specialized services to Maritimers and Atlantic Canadians. We operate hospitals, health centres and community-based programs across the province. Our team of health professionals includes employees, doctors, researchers, learners and volunteers that provide the health care or services you may need. This is accomplished across four geographic management zones which are responsible for the operation of acute care health centres and the provision of a variety of inpatient, outpatient services including academic, tertiary, quaternary care and community based programs and services including continuing care, primary health care, public health, and mental health and addictions.

Responsibilities

The successful candidate will be working the Cytology section of the laboratory. Job Duties are outlined in the job description for a Laboratory Technologist.
