### Infection Prevention and Control Practitioner Southern Interior of British Columbia

We are looking for specialized Infection Prevention & Control (ICP) Registered Nurses who are looking for the opportunity to work on a casual basis at one of our many acute care sites across the Southern Interior of BC.

The ICP assists in promoting excellence in infection prevention and control practice and education through the application of practice standards and specialized infection prevention control knowledge and skills. The ICP uses quality improvement methodologies and epidemiological principles as a basis for program planning and implementation. As a resource in infection prevention and health promotion, the ICP's client base may include patients/residents/clients, families, front-line staff, managers, ancillary support staff, volunteers, medical staff, administrators and others. The incumbent will provide consultation and information that is research based and includes application of best practice in support of the client.

#### Qualifications:

- Baccalaureate Degree in Nursing plus three (3) years' recent relevant clinical experience in an acute or community setting, including two (2) years' relevant experience in a designated clinical area, or an equivalent combination of education, training and experience.
- Current practicing BC College of Nursing Professionals (BCCNP) registration required.
- Completion, or current enrollment in an approved IPAC Canada sponsored and endorsed Infection Control course.
- Current Certification in Infection Control (CIC) with the Certification Board for Infection Control and Epidemiology (CBIC), or expectation that Certification in Infection Control (CIC) will be obtained within two (2) years of hire.
- Knowledge of the interrelationships between Acute, Residential, Community Health and Public Health Resources in the health delivery system.
- Strong working knowledge of program development and implementation and performance measures.
- Valid Class 5 vehicle license required.
