

Clinical Perfusionist

Operating Room

Royal University Hospital

Saskatoon, Saskatchewan, Canada

Are you a committed clinical perfusionist, striving to find a place where you can:

- Work with a **dedicated** operating room team focused on excellence
- Grow your practice in an environment where **evidence based clinical choices** are evident in all aspects of patient care
- Practice with a group of professionals **directly involved in research** and enthusiastic about tracking outcomes
- Live in a **beautiful** riverside community, where you can enjoy the vibrancy of a big city coupled with the easy work-life balance of a small community
- Receive an excellent **starting wage** and **benefits package**

We believe we have the **team**, the **commitment**, and the **community** that will allow you to feel pride in the work you do and live a balanced life!

Our team:

- Loves what we do and where we work
- Is made up of some of the most published perfusionists in Canada
- Is committed to providing exceptional service in a client and family centred model of care

Interested in joining our team?

You will need :

- Certification with the **Canadian Society of Clinical Perfusion** and/or the **American Board of Cardiovascular Perfusion** (or certification eligibility)
- Completion of an accredited **Perfusion Technology** program
- Current **CPR Basic Life Support - Level C** certification
